LEVERAGING TECHNOLOGIES FOR SUPPLY CHAIN SUCCESS

From robots and artificial intelligence to autonomous vehicles delivering your products, the world of supply chain is rapidly changing! We have gathered a panel of best experts in this field who will help us understand what these changes are and will guide us on what we need to do to get ready for this mega shift in how we manage our Supply Chains!

Join the APICS Inland Empire Fall 2017 Symposium to learn from our Expert Panel as they discuss the technological innovations and practices that will dominate and impact the end-to-end Global Supply Chain. Most importantly, learn how you can leverage these technologies for your supply chain success.
