TASKFORCE TEAM GOALS

Economic Recovery *Research Team*

Goals:

- To respond to economic crisis this group will coordinate and analyze real-time data to provide recommendations for economic recovery
- The research provided will include specific, data-informed attention to areas that are critical for economic relief, economic vitality, and policy development
- This will include tracking post COVID-19 job displacement and new forms of economic activity

Economic Recovery Team

Goals:

- To create a regional economic framework that focus on both immediate and long-term economic need for the Inland Empire
- Respond to key economic signals including the acceleration of automation, increased reliance on a strong supply-chain, and shifting workforce needs and training, while responding to business needs
- Advance the competitiveness of foundational industries by investing strategically to make our assets more inclusive, sustainable and resilient.

Workforce Recovery Team

Goals:

- To develop a strategy to continue to expand, retain, and employ our educated and/or displaced workforce in the Inland Empire.
- Potential solutions: Real Time Rapid Response Training, Increased Employer Engagement, Need for Worker Experience
- Create “no wrong door,” systems in which students can add credentials and training through online offerings or virtual Work Based Learning opportunities
- Conduct Workforce Needs interviews and/or surveys with regional employers
