

Global Student Challenge – (<http://tfcstudentchallenge.org/>)

The Global Student Challenge (GSC) aims to bridge the gap between the academic world and the corporate sector and addresses the need for knowledge and product development in Supply Chain Management (SCM). From the start in 2012, the Challenge was an instant success, reaching students from all over the globe. The tremendous benefits and opportunities offered have propelled the Challenge to become the **number 1 competition in the Supply Chain domain worldwide**. GSC is grounded in 3 pillars - *Learning by Experience, Friendships & Cultural Exchange, and Corporate Networking & Recruitment*. The Challenge is very proud to have already provided more than 10,000 students the unique opportunity to LEARN BY EXPERIENCE!

Every year the Challenge pits teams from business schools and universities from across the globe against each other in a search for world's Top Talent in Supply Chain Management. Last year, Cal Poly Pomona student team *OMS (Operations Management Society)* was placed 1st place in the North America Regional Final Rounds. Both Cal Poly Pomona and University of Southern California student teams were invited to the Global Student Challenge Final in Netherland, April 2017. Cal Poly Pomona's team won the 4th place in the 2017 global final. In 2018, CPP team once again won the California Regional Final event and was invited to participate the final challenge in Netherlands in Apr 2018. The CPP team once again won the 4th place among 27 international teams in the 2018 global final event.
